**LMC Volunteer Partner  
John Tully's installation  
as West Central District  
Treasurer at the district  
meeting in Stanley, April  
21, 2016**

#### Lakeview Medical Center Named One of the Nation's 100 Top Hospitals

Lakeview Medical Center (LMC) was named one of the nation's 100 Top Hospitals® by Truven Health Analytics™, a leading provider of data-driven analytics

and solutions to improve the cost and quality of healthcare.

The Truven Health 100 Top Hospitals® study identifies hospitals and leadership teams that provide the highest level of value to their communities, based on a national balanced scorecard measuring overall organizational performance across 11 key analytic measures including patient care, operational efficiency, and financial stability. The study has been conducted annually since 1993.

*"Truven's review of publically available data illustrates that we are a national leader in all aspects of our mission: serving our patients safely, effectively, with caring attitudes, while working to moderate the cost of care provided," said LMC Chief Administrative Officer Ned Wolf. "This honor is the direct result of all of us working very hard to provide the best service possible. It is a testimony to the high degree of respect and teamwork everyone displays each day."*

**Please join us in celebrating all week!**

Don't forget to plan ahead and come early Tuesday morning, to join us for your

***FREE Breakfast of Champions***

6am-10am in the Café.

#### Advocacy Day

Over 1,000 hospital leaders, employees and volunteers including from **Lakeview Medical Center** descended on Madison on March 30th to participate in the Wisconsin Hospital Association's Advocacy day event. Advocacy Day is an annual event that connects hospital supporters from across the state with their legislators in Madison so lawmakers can learn how issues impact local hospitals and communities.

## Community Health Education Report

## What is COPD?

Chronic Obstructive Pulmonary Disease is a a serious lung disease that makes it harder and harder to breathe. because less air is able to flow in and out of your lungs. COPD includes chronic bronchitis, emphysema, or both.

- COPD is the 2nd leading cause of disability in the US.
- 100 cigarettes smoked in your lifetime puts you at risk for COPD.
- Every 4 minutes somebody dies of COPD.
- 24 million Americans have COPD, but only 12 million know it.

*Lynda Rogstad, CHE Chair*
